

WFP Income Fund Announces an 8.25% Net Annualized Year-to-Date Return for 2014

Los Angeles, California – June 2, 2014 – Wilshire Finance Partners, manager of the WFP Income Fund today announced year-to-date fund results. Through May 31, 2014 the WFP Income Fund paid investors an 8.25% net annualized return through a loan portfolio consisting of first trust deeds and mortgages with a weighted average loan to value of 61.82%, a weighted average maturity of less than 2 years, and 0% non-performing assets. “We are pleased with the Fund’s performance as compared to other short-term, fixed income investments in the marketplace,” said Don Pelgrim, CEO of Wilshire Finance Partners. “Combined with lower loan-to-values resulting in a protective equity cushion for the invested principal and little to no correlation to the stock and bond markets, we are seeing new investors view the Fund as an alternative to hedge against potential price adjustments in traditional exchange traded investments,” he added.
