WFP Opportunity Fund Announces a 21.85% Net Annualized Return for First Quarter 2017

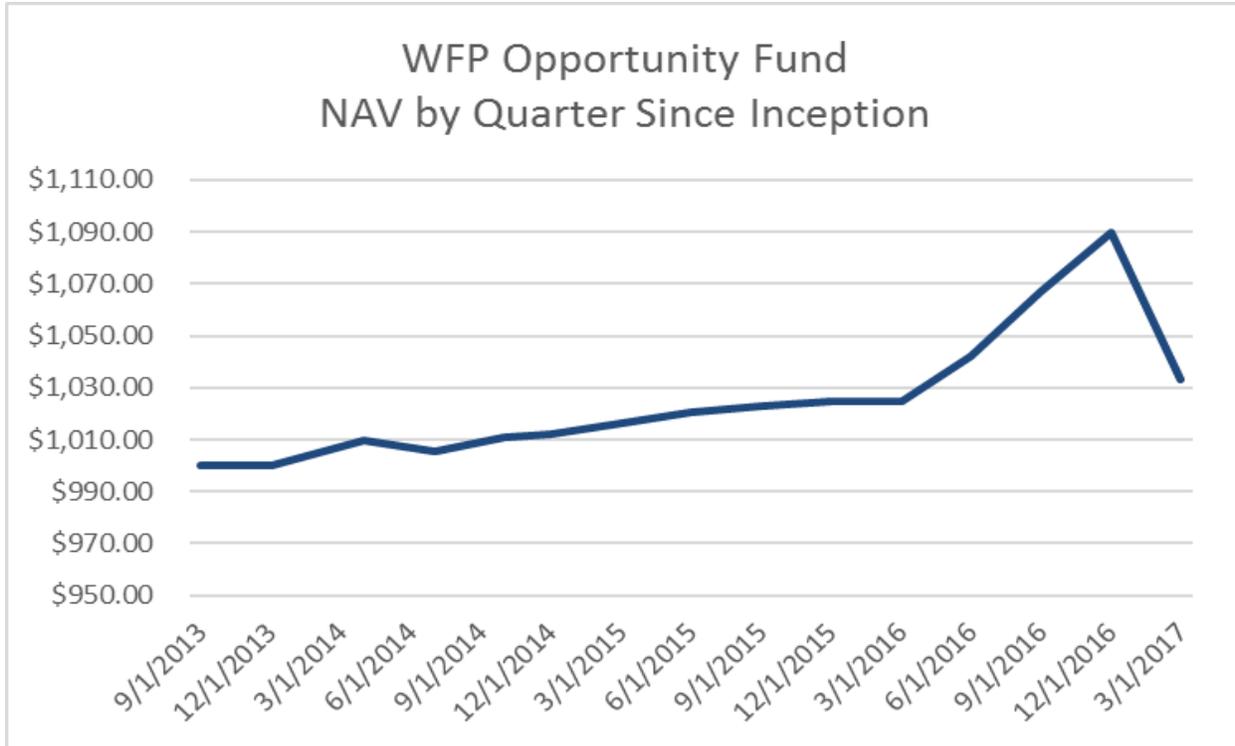

April 4, 2017, Los Angeles, California – The WFP Opportunity Fund, managed by Wilshire Finance Partners, generated a 21.85% net annualized non-compounded return for the first quarter of 2017. The net annualized compounded return for the fund since its inception on September 23, 2013 through March 31, 2017 was 14.41%.

The WFP Opportunity Fund seeks to provide attractive risk-adjusted returns to its investors through debt and equity investments in real estate within the United States. Such investments will include, without limitation, direct and indirect equity investments, joint ventures, deeds of trust and mortgages, participating loans and other real estate related investments. The fund is not correlated to the stock or bond markets and has little to no sensitivity to interest rates.

The return obtained by the fund was on an unlevered basis and was primarily the result of interest income received on the trust deeds, mortgages and participating loans in the fund's portfolio. A significant portion of the fund's return in the first quarter of 2017 was the result of the gain realized on a participating loan

in the fund's portfolio. Per investment election of each investor, cash proceeds from that gain were either distributed to the investor or reinvested to acquire additional units in the fund based on the Net Asset Value of the fund ex-dividend. The chart below reflects the reduction in the Net Asset Value of the fund resulting from the realization event and that dividend payment. i.e. the NAV ex-dividend.

At the end of the first quarter in 2017, the fund’s portfolio primarily consisted of first mortgages, second trust deeds and B Notes with combined loan-to-values of approximately 59.25%.

Throughout 2016 and in the first quarter of 2017, the fund held a relatively large cash position as management continued to assess investment opportunities meeting the fund's investment parameters, risk tolerance and return requirements. At March 31, 2017 the fund held a cash position of 37.95% of total assets in the fund.

“We are very pleased with the dividend we were able to distribute to the fund’s investors in the first quarter,” said Don Pelgrim, CEO of Wilshire Finance Partners. “That dividend was primarily the result of the gain received on the participating loan made by the fund to a senior assisted living facility in Florida. The participating return on that loan was above expectations and can be attributed to both the hard work and efforts of the borrower-sponsor creating additional value in the project, as well as the opportunity for the fund to accelerate the realization of the gain.”
